February 29, 2024 | 4:00 - 5:30 pm
Desert Diamond Hotel and Conference
Center (Nogales Hwy in Tucson)

Have you ever wondered:

- **What types of careers are available in the climate field?**
- **What types of education and experience can prepare you for a career in climate?**

If so, please join us for the Climate Careers Fair where you will meet a range of climate professionals. Come ready to engage and learn about climate career paths!

There is no cost to participate.

What is the Southwest Adaptation Forum?

The Southwest Adaptation Forum is the biennial gathering of practitioners, professionals, researchers, and community members working to accelerate effective climate adaptation and collectively reduce the impacts of climate change in communities and landscapes across the Southwest. February 27-29. For info or to register for SWAF, click [here](#).

Who can attend the Climate Careers Fair?

- College students and early career professionals
- Middle and high school students interested in working in the climate and conservation fields
- Youth engaged in climate and environmental activities
- Anyone interested in learning more about climate resilience!
