

Fall 2024

# Wildland Plants of North America

RAM/PLS 370, 2-credit

4:00-5:45 pm Thursdays, BSE 124

Instructor: Sarah Noelle  
[smnoelle@arizona.edu](mailto:smnoelle@arizona.edu)

This course introduces students to the practice of identifying plants through observing differences in morphology among plant characteristics. The skills are used to review the common wildland plants across North America. These combined skills, plant identification and knowledge of common plants, are sought-after skills by employers.

Contact the instructor to verify the skillset needed for success.
