

Oregon State University
**College of Agricultural
Sciences**

NOW SEEKING MASTER'S STUDENT!

The Martyn Ecology Lab is pleased to invite student applicants for OSU's Rangeland Science Master's program within the Department of Animal and Rangeland Science.

Tuition and stipend are included for two years, starting in Fall 2025.

WHAT YOUR RESEARCH COULD INCLUDE:

- Climate impacts on invasive and native/desired plant species
- Seed technologies to enhance plant establishment
- Outcomes of plant interactions between invasive annual grasses and native/desired species

See position announcement for full description and application requirements.
