

## How to Get to the ENR2 Rooftop and N604

The ENR2 6th floor/roof can be accessed via **elevator 2** or **the stairways** during your event. The elevators are located at the northwest corner of the building, west of the restrooms in the courtyard on the first floor. The stairs are located on both the east and west sides of the building. The roof can also be accessed via **the center staircase in the 5<sup>th</sup> floor north lobby**, the main entrance for the Arizona Institutes for Resilience.

Using **elevator 2** to get to the sixth floor:

1. The right-side elevator car is the **only** car that goes to the roof. Using the call button on the inside of the elevator frame, you can call that car specifically (see images 1-3).
2. Once inside the elevator, press the "R" button for the roof. This will take you to the 6<sup>th</sup> floor, and exit onto the roof patio area. *\*Note: This feature is locked outside of an event's scheduled hours.*

The next page will take you on a photo journey to the roof via the elevator.

There is one accessible, all-gender restroom located on the east side of the roof. There is a women's restroom in the northeast corner of the 5<sup>th</sup> floor, and a men's in the southeast corner.

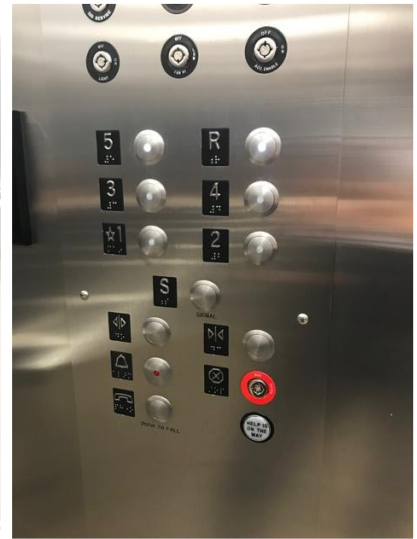

## A Photo Journey to the ENR2 Roof

1. Only the right-hand car.

2. Press the **inside** call button.

3. Press the "R" button for roof.

4. Elevator opens to roof.
